4. [redacted] the Mogilev [redacted] was the outboard member of three ships berthed side by side. [redacted] took particular notice of the inboard ship of the three just mentioned. She was estimated to be thirteen thousand to fourteen thousand tons dead weight, had McGregor by-pod masts fore and aft, and [redacted] was all-weld construction. [redacted] she was built in 55 days entirely by Chinese Communist labor, would accommodate passengers, and would be used on the Shanghai-Dairen run. [redacted]

5. The middle ship of the three berthed side by side was evaluated as a merchant

She was undergoing a complete overhaul,

25X1

Slipway No 1 looked as if it would accommodate fifteen hundred to twenty hundred tons and did not appear to have a marine railway,

noticed great activity in the yard with a ship being constructed in each of the building ways

25X1

6. The four drydocks were estimated to accommodate ships up to ten thousand tons dead weight per dock. were three new icebreaker tugs berthed side by side, estimated them to be 120 ft long and to have a beam of thirty ft.
